

[Example for master's committees with one supervisor – remove material in square brackets [] before adding the page to your thesis, and please remove all lines you do not use.]

The following individuals certify that they have read, and recommend to the Faculty of Graduate and Postdoctoral Studies for acceptance, the thesis entitled:

Materials from mines: an analysis of uses in manufacturing

submitted by Joe Fish in partial fulfilment of the requirements for

the degree of Master of Applied Science

in Materials Engineering

Examining Committee:

John Smith, Professor, Materials Engineering, UBC

Supervisor

Mary Maker, Professor, Materials Engineering, UBC

Supervisory Committee Member

Magnus Monolith, Associate Professor, Materials Engineering, UBC

Supervisory Committee Member

Additional Supervisory Committee Members:

Adeline Long, CEO of Aerial Machine Transportation, Inc.

Supervisory Committee Member

[Example for master’s committees with two co-supervisors – remove material in square brackets [] before adding the page to your thesis, and please remove all lines you do not use.]

The following individuals certify that they have read, and recommend to the Faculty of Graduate and Postdoctoral Studies for acceptance, the thesis entitled:

Identifying committee members in a UBC thesis

submitted by Joe Fish in partial fulfilment of the requirements for

the degree of Master of Applied Science

in Materials Engineering

Examining Committee:

John Smith, Professor, Materials Engineering, UBC

Co-supervisor

Mary Maker, Professor, Materials Engineering, UBC

Co-supervisor

Magnus Monolith, Associate Professor, Materials Engineering, UBC

Additional Examiner

Additional Supervisory Committee Members:

Adeline Long, CEO of Aerial Machine Transportation, Inc.

Supervisory Committee Member
